“ *When Bro Daniel was excited or happy about something, he'd always say, "Wonderbar." That was always funny.*

He and I were best fellowship buddies. There wasn't a year or month that went by that we talked intensely and compassionately about the Word of God. We strengthened each other every year. That is something I will always remember. We were a modern Peter and John talking about this and that while sharing revelation from the Holy Ghost.

We loved Bro Daniel's honesty. His smile was very sincere. His tears when we had to depart - were always as he said, "a moment of melancholy."

He was and still is my best friend in what is called the Revealed Word of God for a Rapture.

He always knew he was close to either death's door or the rapture in these End times. He said 2025 is the year of departure back in January 2025. He didn't know which would come first but we both knew both were very close.

I and my wife will miss our beloved friend very much. No man or woman could appreciate the fellowship we had with the Sharps.

God bless - Bro Daniel always.
