“ Well I guess one of my best memories is the way
He could entertain at family gatherings! Or any group of people that
would listen ! He would start with some corny jokes . That he called
" boo jokes" And then go off in some far fetched story. That might
have some truth to it But always funny or corny! and if you were real
lucky . You got to hear his RED SPUR stories Those were some of
the best! I sure will miss him And the stories and jokes
Love # one son
